

# IA-1007

4-ch, 10Amp  
Relay module  
Discrete Control

**IA Intelligent Appliance**  
For Smart Solutions...

## Features

- 4-ch SPDT Power Relay
- +3V to +30VDC Control Voltage
- 12V and 24V Version, Supply Voltage
- Status Indicator Leds
- Contacts Protection Suppressors
- DIN-Rail mounting ready

## Introduction

Intelligent-Appliance IA-1007 Discrete Relay Module was designed for a simple conversion of digital output into a dual pole 'Dry-Contact' output with a contact rating of 10Amp. The IA-1007 Discrete Relay Module includes 4 SPDT Relays, Led status indicators and voltage suppressors across their contacts to eliminate EMI/RFI noise while being switched. Control voltage operation range is +3 to 30VDC at a current of 1mA to 11mA.

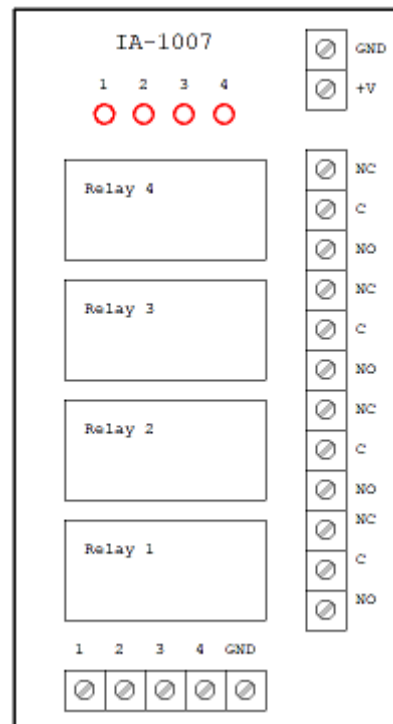

## Specifications

### Relays

Channels	4
Type	SPDT
Current Rating	10Amp @ 30VDC 10Amp @ 277VAC
Control Voltage	3-30 VDC
Control Current	1-11 mA

### General

Supply Voltage	12VDC or 24VDC
Power Consumption	1.5w
Size	114x56x50mm
Weight	105gr
